WEEK OF WAR TALK

Has Driven Everything Else Out of John Bull's Head.

HE IS IMMENSELY READY

And Gives Himself Six Months to Lick Oom Paul.

(Copyright, 1999, the Associated Press) London, Sept. 5-This week great Britain has resembled in every respect the tremendously exciting week in the United States which immediately preceded the outbreak of the war with Spain. Dreyfus and other topics sunk into obscurity, patriotic enthusiasm has been at fever heat and the sign of the appearance of war has been selzed upon by the press at a status of the crisis. The difference be tween the state of affairs and the situation in the United States in April, 1899, is merely that the projected campaign is military instead of naval. According to reliable statements, the army is ready. The paper teem with descriptions of the troops who are expected to do the fighting, with accounts of their equipment and method of transport and even the relative killing properties of the bullets which, it is expected, will soon be longed under the Boer skins. The particular pet is now a bullet known as "Mark t." is claimed that its lead core is harder and less fusible than any tried heretofore quantities are being shipped to Cape-

Though mobilization has never been strong feature of the British army, it is believed that a system as near perfecas possible has been prepared. The commander in chief, Ploid Marshul Lord Wolsely, Sir Evelyn Wood, General Str. Redvers Buller and other generals have been working strenously on it for months Many new features have been introduce several of them being based on the les sons learned by the American troops in war with Spain. Among the latter is the extreme usefulness of mules in such a country as the Transvaul. The British officers who have been in the United States, Spain and South America selecting bunches of these animals have now been ordered to close their purchase and machinery. ship the nules as quickly as possible to the scene of the probable hostalities.

All these things, to say nothing of the eplendid morale and reputation of the regiments selected for the Cape, indicate that If war comes it will be waged re dy and strongly and that fill be no abatement until South Africa to flooded with British troops in your numbers that organized resistance by the Paers will be impossible. Before the main British body of troops arrive it is throught possible the Boers may scar some decided success and even after be ing evercome by the force of superio numbers they may continue the war in guerrilla fashion for many months. But conservative opinion places six months as the outside limit for the capture of Jo hannesburg and Pretoria. If another Majuba Hill marks the annuls of the pos caution on the part of the British. The Swarls are expected to give Treat Brituln considerable aid and, with the exception of the Pondos, the whole body of blacks between Cape Anulius and the

DREYFUS' FINAL PROTEST asked Dreyfus if he had anything to add in his behalf. The prisoner arose and in a voice choked with emotion declared that he had only one thing to say, but of that he was perfectly actored. He said: "I affirm before my country and before my army that I am innocent. My sole aim has been to save the honor of my name, the name borne by my children. I have suffered five years of the most awful torture. But today, at last, I feel assured that I am about to attain my desire, through your loyalty and justice." Colonel Jouaust-Have you finished,

Dreyfus-Yes, M. le President. THE VERDICT RENDERED

The court then retired to deliberate, and the prisoner left the hall, never to return, as, in accordance with the law, the verdict was rendered in his absence. The ringing of a bell announced the entry of the judges, an officer ordered "Car-To those who will kindly write to MARIANI & Co., 52 West lith Street, New York City, will be sont pasting nook containing portraits with endorsements of Emperors Emperors, Empe ry arms" and "Present arms," the rattle for the announcement of Dreyfus' fate. judgment, which opened with the question referred to the judges by the court of cassation. HAY FEVER OR ENDEMIC CATARRH.

The Remarkable Experience of a Philadelphia Architect With This Malady.

orable locality. It has all the symptoms weather set in. of acute catarrh-sneezing, abundant

times exciting spasmodic asthma.

Mr. J. Naschold.

Ave., Philadelphia, Pa., recommends Pelactly. It is always advisable to begis ru-na for hay fever or endemic catarrh the use of Pe-ru-na a week or two before (hay fever) He writes:

"I have used your treatment for ca- cases, where the attack can be foretold, tarrh of the head, nose and throat, as as this will often prevent entirely the you diagnosed it, and have taken four return of the disease. Address Dr. Hart-

Hay fever is really acute catarrh ex- | plish all the good work you claimed for cited by minute emanations from cer-tain grasses, flowering plants, fungi, or truthfully that I am entirely cured. I dried vegetable substances. It is very have for years been a sufferer of this sudden in its onset, and, without proper disease, especially during spring and treatment, continues until the season summer time, and never have received changes or the patient goes to some fav- any relief until very hot or very cold

"I had taken these four bottles during exudations of mucus, and thickened, February, March and April, when I not reddened muccus membranes, some only felt greatly better, but was as the case stands now, cured, for every year for these three years the attacks re-turned about the middle of August and lasted until December. During the critical month of September I have had only a slight attack of hay-fever or catarrh, which I get rid of by taking about three-fourths of a bottle of Pe-ru-na, while, for instance, the autum of '97, during which time I had only redress to the remedies then known to me, I suffered for mouths. I have been entirely free from catarrh this autumn with the exception of the above mentioned time." J. Naschold.

Pe-ru-na is a specific for hay fever and should be taken during the whole eason of the exposure to the cause; for, as long as the exciting cause remains, no cure can be permanent. People who are unable to change their location during the season of hay fever will find in Pe-ru-na a priceless benefit to them, as it Mr. J. Naschold, 428 West Mt. Pleasant | meets every disagreeable symptom ex the expected attack of hay fever in old bottles of Pe-ru-na- which did accom- man, Columbus, Ohio, for a free book.

The microbes that cause chills and fever and malaria enter the system through mucous membranes made porous by catarrh. Pe-ru-na heals the mucous membranes and prevents the entrance of malarial germs, thus pre venting and curing these affections.
